We Are Selling Cheaper Mileage

You may get extraordinary mileage out of any one tire—but that's not the way to figure mileage.

Get the average of mileage given by a pair of tires or a set—and you will get nearer to the actual cost of mileage to be charged to the upkeep of your car.

It's just because we've taken the trouble to figure values that way, that we recommend Ames Holden "Auto-Shoes."

We know they are giving real mileage over the worst roads in the country, and their "average" performance leaves no doubt in our minds that Ames Holden "Auto-Shoes" will give you the cheapest mileage you can buy. And they are guaranteed without time or mileage limit. Drop in and let us show you and tell you about

Off To The Old Country

F. M. Black, Treasurer and F. J. Collyer, Director, who have been sent to England and the Continent by United Grain Growers to find an increased market for farmers' co-operative shipments of cattle.

Gardiner Wins by a Sweeping Majority

Latest Returns Give Gardiner a Majority of 6,156

The Medicine Hat bye-election passed off very quietly in Chinook. The weather was fine and a large percentage of votes were cast, the town of Chinook polling 197 votes, Gardiner 144, Spencer 53. At the time of going to press, according to latest returns, with fifty four polls to hear from, Mr. Gardiner is leading by 6,156 votes. It is thought that the majority for the farmers' candidate will be over 7,000.

Much interest and enthusiasm was shown here no Monday night when the returns were coming in and almost every farmer in the district for miles around came in to town to hear the results of the election.

The following is a partial list of the polls in this district, and the votes cast:

Poll	Gov't	Gardiner
Chinook	53	144
Youngstown	90	230
Cereal	61	98
Laufine	8	152
Oyen	38	300
Sibbald	40	148
Coltholme	10	120
Ridervale	2	125
Crocus Plains	9	187
Sodalia	2	152
Benton	32	102
Stanmore	9	185
Reist	1	185
Myrtle	6	84
Langford	4	118

Rev. G. Kettles, of Peace River district will succeed Mr. Elliott in the Chinook appointment. Mr. Kettles is expected to preach his first sermon in the Chinook church next Sunday.

S. A. Miller, of Oyen was a visitor in town Tuesday.

The children of the Chinook Sunday school held a very enjoyable picnic last Saturday at Mr. Gingles' farm south of town.

Jas. Rennie left Tuesday for Saintuluta, Sask., where he will spend a holiday.

Personalities

Dominion Day, Friday, July 1. All stores and places of business will be closed.

Constable G. C. Cruickshank of the R.N.W.M.P., left on Saturday for Lethbridge where he will spend a week in training.

Rev. G. H. Elliott, who has been spending two weeks' holidays at the Coast, returned last Friday. Mr. and Mrs. Elliott expect to leave at the end of the week for their new appointment at Irma, Alta.

Mrs. J. C. Hess and Miss Wilson of Clover Leaf, were visitors in town last Friday.

Mrs. Gordon left Friday for Calgary where she will spend a couple of weeks' vacation.

Quite a number of Chinook people attended the Cereal sports last Friday.

Misses R. Lawrence and N. Reist left on Sunday for Banff where they will spend a short vacation.

Mr. and Mrs. I. W. Deman, of Calgary, who have been visiting Mr. and Mrs. I. W. Deman returned home this week.

Popular Chinook Man Joins the Benedicts

A quiet wedding was solemnized at the Presbyterian church, Calgary on Tuesday, June 28, when Miss Mabel Dalton, of Fort Augustus, P.E.I., was united in marriage to Mr. J. M. Montgomery, of Chinook. The ceremony was performed by the Rev. Mr. Laveria. The happy couple returned to their new home in Chinook on Wednesday.

The Advance join with the many friends of Mr. and Mrs. Montgomery in wishing them much happiness in their married life.

"The Store that Saves You Money"

Who and What Are We?

Is there such a person as a Canadian?
The Government of Canada says there is not. According to the official records there is not one Canadian among the eight or nine million inhabitants of this Dominion. Neither the Premier of Canada, nor any one of the Premiers of the nine Provinces, is a Canadian. They may have been born in Canada, and their parents and grandparents before them, but that makes no difference—they are not Canadians. The Government of Canada says so, and has instructed its army of census officials to record the amazing fact.

Readers of the above may be skeptical of the truth of these assertions, but a little quiet inquiry and investigation on their part will soon establish the correctness of the statements made.

Commencing on June 1st the work of taking the decennial census of Canada was begun and enumerators began visiting the homes of the Dominion aimed with official forms and pencil in hand asking questions of all and sundry as to their names, age, place of birth, nationality, etc. Coming to the question of nationality, a man or woman born in Canada, very naturally reply that they are Canadians. But Mr. Census-taker retorts that they are not. They may be anything else, but they most assuredly are not Canadians. When these patriotic sons or daughters of Canada insist they are Canadians, first, last and all the time, and nothing else, the faithful servant of the Government of Canada is forced to explain to them that there are no Canadians; the Government does not recognize them in all the official tabulation of the nationality of the residents of the Dominion.

Mr. Census-taker will then ask: "Where was your father born?" "In Canada," comes the reply. "Where was your mother born?" Again the answer is, "In Canada." "Well, they are not Canadians either," is the dictum. And then Mr. Census-taker will explain that Canada is not a nation and, therefore, there can be no Canadian nationality. He may then ask: "Were your grandparents, or possibly your great-grandparents, Irish?" The ordinary Canadian resident may retort: "But has that got to do with Ireland is not a nation. It is even less a nation than Canada. Canada enjoys not only full self-government, but it is a member of the League of Nations on a basis of entire equality with all other nations, which Ireland is not."

The logical force of such an answer is, however, entirely lost upon the Government of Canada. Residents of this Dominion may be classified as Irish, or Scotch, or Welsh, or Hottentot, or Chinese, or Turks—anything almost but Canadian, even though it is necessary to go back prior to the days of Jacques Cartier to find out some remote ancestor born outside the boundaries of the Dominion in order to fix some nationality upon native-born Canadians.

This is not a far-fetched description, because the writer has personal knowledge of an instance where a Canadian-born citizen informed the census enumerator that he had no knowledge of any ancestors but those whose place of birth was Canada, and who was, therefore, recorded by the enumerator as "Nationality unknown."

Yet our politicians and statesmen boast of Canada as a nation. In rounded periods and with great eloquence they dwell upon this Dominion's place among the nations, and the prominent part it plays in the councils of the League of Nations. On all sides exhortations are heard of our duty to Canadianize our new settlers from "foreign" lands. The Canadianizing of all peoples within our bounds is urged as a foremost Canadian duty and responsibility. Yet when the children of these "New Canadians" proudly say: "I am a Canadian," the Government of Canada officially tells them they are mistaken; they are Germans, or Russians, or Poles, or Austrians, or Italians, but they are not Canadians and never can be, nor can their children or children's children ever be throughout the ages yet to come.

Pick up the official census returns for all past decades and see if you can find that there is a Canadian living in Canada.

Is it not high time that this obsolete, antiquated classification of bygone years be discarded? Has the time not come when a person born in Canada has a right to be classified as a Canadian and not be compelled to accept official designation of some other nationality which he will never accept for himself personally?

What is the sense of preaching Canadianism and seeking to create and develop a Canadian national sentiment, Canadian art, Canadian literature, a true and lasting pride in Canada and Canadian institutions, if for all time the world is to be officially informed through the publications of the Canadian Government that such a person as a Canadian is non-existent, that this Dominion is still an infant colony of little or no importance inhabited for the time being by English, Scotch, Irish, Welsh, American, German, Austrian, Russian and other peoples?

Canada talking of having its own Minister at Washington, sitting in the councils of the League of Nations, taking its full part in the Great World War, and yet denying to its own native-born sons and daughters the right to the name Canadian presents an anomaly that should be removed. The Ottawa Government had better bestir itself and place itself and the official records of this Dominion in line with real Canadian sentiment and aspirations.

Aviation In The West

Forty Planes in Operation in Prairie Provinces.

Edmonton will be the headquarters for the government's aviation inspection work in the four western provinces, according to A. G. Goulding, western representative of the Canada Air Board, who has just returned from a several weeks' trip to the Pacific coast. As an illustration of what progress the air-flying game is making in the west, it is stated that 40 planes are now in operation between the Great Lakes and the Pacific.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

When a man attempts to speak in public for the first time the audience makes him nervous—but later on he makes the audience nervous.

Manitoba Stock

For Chicago Show

Horses, Cattle, Sheep and Swine Will Go to International.

One carload of horses, two of cattle and one of sheep and swine will be sent to the International Livestock Show in Chicago from Manitoba. This was decided at a meeting of the executive of the Manitoba Stock Breeders' Association. About twenty-five prominent breeders were present. The final selection for the exhibit will be made at the Brandon provincial fair.

France Gets Big Zeppelin.

The dirigible balloon, Nordstern, built in Germany, has been delivered to France under the stipulations of the Versailles peace treaty. The dirigible is one of the largest Zeppelins ever built and only recently completed on Lake Constance.

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

TOOTHACHE

Copyright, 1921, by Rea Proctor McGee.

One of the most peculiar things about toothache is that in three out of four cases the tooth that seems to ache is innocent.

The teeth seem to act like a large family of children. When one of them raises Cain he blames it on the other.

So don't be surprised—when you go to the dentist and confidently tell him that the tooth upon which your finger is resting is the one that is causing you trouble—to have him make a few tests and tell you that it is another tooth, probably far distant from the one that you suspect.

There are so many different forms of toothache that each person probably has a different experience from anyone else. There are even times when it is very difficult really to say that the pain that is being suffered is a toothache, although almost everyone thinks that there would be no difficulty whatever in recognizing this particular form of pain.

In addition to pain directly about the teeth, an aching tooth can cause pain in the ear, or in the eye, or almost any form of headache, facial neuralgia or pains in the neck or arm—and there have been cases on record in which practically all pain of an aching tooth was felt in the sole of the foot.

The evil result of an aching tooth is not so much the pain inflicted on the patient at the time as it is the harm done to the general system by the absorption of pus from the infected root of the tooth.

It is quite true that not all aching teeth are abscessed, because the slightest exposure of the pulp will result in sharp pain.

But this exposure is bound to result in the death of the pulp, and so will have the following in the train of this pain the certainty of infection, which means absorption. There are other cases in which the pulp is not exposed, but from some form of irritation—such as a tooth being bitten upon too hard, or being exposed upon naturally to extremes of heat and cold, or being ground down for crowns or bridges—the irritation with sometimes cause the pulp to die.

When the pulp dies it immediately begins decomposition.

This causes the formation of gas—which in turn makes very high pressure upon the nerve filaments that supply the pulp—and this pressure is carried back over the main branch of the fifth nerve where it may be relayed to many parts of the body, so that from the reflex pressure at the tip of the root of a tooth you can have pain in almost any part of the body.

This is in addition to the evils and the pains that result from the actual absorption either of pus or of products.

An aching tooth is not only uncomfortable, but it is also very dangerous.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come so quickly and nagging should always be at hand and promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; hasten digestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Mavis Catalte, Makinuk, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New El Dorado in B.C.

Hopes of discovery of a new El Dorado in Northern British Columbia are held by a group of experienced mining men, who, it is understood, are financing an expedition to the Cassiar district. Stuart Henderson, a well-known lawyer and promoter, is said to be at the head of the enterprise.

Famous German U-Boat is Sunk.

The German super submarine Deutschland, which in 1916 slipped into Baltimore harbor from Germany, after daringly running the gauntlet of British and French cruisers, was sunk by gunfire during target practice off the French coast.

Ask for Minard's and take no other

W. N. U. 1374

A CORDIAL INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition to begin with—but it's dangerous because it leads to indigestion, fills the system with poisons, brings on anaemia. You don't need a purgative, you don't want to weaken the system by a harsh gripping medicine—what you need is mild natural stimulant to the bowels. You get just what you need in Dr. Hamilton's pills which tone up the liver, restore the bowels to perfect action and positively end constipation. You'll feel tip top after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine. 25c all dealers or The Catarthozone Co., Montreal.

Shipping Matches to England.

The first shipment of match splints from Pembroke, Ont., consisting of 520 million undigged matches, left for England recently on the Empress of Britain. A Canadian company was organized a year ago as an offshoot of the parent organization in England and match splint machinery installed, and the discovery and acquisition of suitable timber limits on the Ottawa River.

Heart Weak Nerves Shattered After the "Flu."

If a large majority of cases those who survived the last epidemic of Spanish influenza were left with weak hearts, shattered nerves, impoverished blood, and the whole system has been left in such a general weakened and exhausted condition that it has been impossible to get back your old health and strength.

If you are in this condition, there is only one thing to do; take a course of Milburn's Heart and Nerve Pills and see how quickly your heart and nerves are strengthened, your nerves toned up and your blood enriched.

Mrs. W. W. Pearce, 41 Seaton St., Toronto, Ont., writes: "I was left with a weak heart and in a rundown condition from the 'flu.' My nerves were badly shattered, and I had such pains in my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief; after taking six boxes I have been well and no longer suffer."

Price 50c a box at all dealers or by mail at reduced price by The T. Milburn Co., Limited, Toronto, Ont.

Wear Your Clothes Longer

Buy Bully Beef and Dodge the Cost of High Living.

Retailers seem to have the best just now of the discussion as to the cost of living.

Butchers state and seem to be able to prove their case that many consumers who are objecting to the high prices of meat, refuse to consider any but the choicest cuts, so that the canny housewife gets the pick of most desirable meats, though not the most aristocratic joints, and feeds her household at almost pre-war prices.

It is noted by many provisioners that a good demand is coming up for corned beef in cans. The "bully beef" of the soldier, this wholesome and economical meat is selling in large quantities. Perhaps soldiers are lonesome for it! Despite this revived interest in cooked corned beef, it is far as yet from its pre-war sales.

Commenting on published statements of the cost of living, a well-known food country provisioner recently claimed that comparisons of prices were most misleading.

For instance, even though a loin steak, formerly selling at 30c apiece, 50c, this does not increase the cost of living by 66 per cent. to the person who buys, as the latter is now sold at about pre-war prices. Moreover, added this high authority, the same applies to many other items.

Take clothing for example, even if a suit costs 30 per cent. more, this does not increase the necessary expenditure 50 per cent. of one who is satisfied to wear his clothes longer.

In other words, at the present time, it is possible to live on much lower costs than the published figures of comparative prices would indicate. So eat "Bully Beef" wear your old clothes and beat the cost of high living.

CRAMPS, CRAMPS, CRAMPS!

How To Stop Them Quick

When you have cramps, it is a mighty quick relief that you want. Old "Nervine" is sure at death to relieve cramps in a hurry. Just a few drops in sweetened water, and the pain is gone. Buy a bottle of Nervine at your drug store and keep it handy. Nervine is a common household necessity, and is so useful in cases of indigestion, heart, when cramps, nausea, diarrhoea, vomiting or the like occurs. Sold everywhere in large 35 cent bottles.

When It Is "Too Warm To Eat"

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Many physicians will tell you that patients who have gone along fairly well all winter, complain of feeling rundown in the fall of the year after a summer that has perhaps, even included several weeks' vacation.

"It's too warm to eat," remarked a mother to me one warm day last summer. "Youngsters eat scarcely anything for breakfast and care for very little the rest of the day. They always feel so rundown after a warm spell I'm just glad to see the cool days come on again, for the kiddies always fatten up during the cool days and feel so much better."

It must be admitted that we desire less food in hot weather than we do in cool weather. But the process of life goes on just the same in summer as they do in winter. Children have need of the food that makes for growth and development and adults have need for food which shall repair the tissues worn out by just living—breathing, or by the more strenuous job of bathing in the ocean, or playing tennis, or working in the office a little more strenuously because "so many are off on vacation."

It is, therefore, up to the mother of the family who has the welfare of her family at heart to see to it that the members of the family get nourishing meals at regular intervals in summer—just as in winter. True, the quantity of food served may be reduced. The type of food, too, may be altered somewhat. For instance, a dish of fresh sugared peaches or pineapple or berries is a better choice for dessert on a torrid day than the mince pie of Christmas time.

Again, it must be remembered that fat in some form is necessary in the diet. Even in the tropics, where a low diet of rice is used, fat, if only a little, in some form has to be added in order to maintain health. Mutton stew, with its generous fat, is not an appropriate dish for a warm day's midday meal. A salad made of lettuce and salmon combined with crisp celery and served on leaves of lettuce, would be a better choice. If the fish seems dry, serve a little mayonnaise with it. Mayonnaise is fat in a readily digested form.

A salad, to be at its best, should be served ice cold. A near cold and warm salad is often pushed aside by a hot, fagged-out woman when ice cold would, perhaps, be promptly eaten.

Another hint to those who foolishly give up eating or practically do so during the summer is—have hot food at least once a day, even in summer. Warm food has the effect of stimulating the stomach and making it ready for the foods that follow. In other words, warm food assists in the digestion of other foods.

In this respect I was able to follow up a little boy last summer who was losing flesh too rapidly because he did not care to eat the food set before him. His mother served him with preceptable food, but because of the great heat she served everything cold. After a week was passed to give him a small cup of hot consommé before luncheon, it was remarkable to see how willingly the little fellow ate the rest of the food that he did not seem to care for before.

Business girls who do not think enough about health lines are apt to substitute the ice cream soda as soon as the days grow warm for the warm, nourishing little luncheon they chose during the colder days. If you must have ice or an ice, take it at the end of the meal, even if that meal consists of but a couple of bread and butter sandwiches.

Meals need not be elaborate nor take hours to prepare. But, don't fall into the error of giving up eating, just because warm weather has come in. Cut down on the fats, such as butter, oil, fat of meat, cream, which give heat, but don't cut them out.

Minard's Liniment used by Physicians

Alberta "Baby" Industry Growing. One of Alberta's "baby" industries, the Alberta Clay Products Company, has been making a very successful showing. While only in existence a few years, this company is competing with and securing contracts from many larger and older firms. This year their plant is running at capacity, and a considerable number of earthen orders have been shipped.

An Odd Insurance Policy.

One of the oddest insurance policies on record was that of a man who insured himself at Lloyd's against the consequences of having violent hands on his mother-in-law.

Mr. Herbert Osborn Tells How Cuticura Healed His Wife

"My wife began to be troubled with itching and burning of the palms of her hands and the soles of her feet. Later the skin cracked and became inflamed, making walking or even standing very painful and preventing sleep at night. Later it became necessary to bandage both hands and feet."

"She was treated but obtained no relief. She saw an advertisement for Cuticura Soap and Ointment and sent for a free sample. She bought more and after using two boxes of Cuticura Soap and two boxes of Cuticura Ointment she was healed." (Signed) Herbert Osborn, 135 Sherbrooke Ave., Ottawa, Ont., Sept. 2, 1910.

Cuticura is ideal for every-day toilet uses. Soap to cleanse and purify, Ointment to soothe and heal. — Cuticura Soap and Ointment sent for a free sample. Write to: Cuticura, Dept. 5, Montreal, P. Q.

Box 25, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Branch, Lyman Limited, 51, Paul St., Montreal. Write for Cuticura Soap without cost.

Japs Buy B. C. Lumber

To Rebuild Part of Tokio Destroyed By Fire.

The Japanese Government has just purchased from six million to six million five hundred thousand feet of British Columbia lumber. The major portion of this timber will be required for the rebuilding of a large part of Tokio, recently destroyed by fire.

To Extend Irrigation

B. C. Government Is Advancing Funds For Work.

The Provincial Government is advancing \$225,000 from the conservation fund for construction of irrigation works at Grand Forks, B.C. The money spent will be repayable to the government, and the cost of the work will be charged on the land benefited, and will not increase the burden on taxpayers in other parts of the province.

Ladies Remove Their Corns In A Very Simple Way

No pain, no trouble, costs only a quarter. It is a very simple thing to point on a small application of good old "Pain Expeller" at night and morning. To remove corns, to get entirely free from them, use Putnam's Corn & Wart Extractor. It is guaranteed, 25c at all dealers. Refuse a substitute.

"Er—I want some sort of a present for a young lady."
"Sweetheart or sister?"
"Er—why, she hasn't said yet which she'll be."—Houston Post.

contain all the natural up-building values of the grains, including mineral salts so essential to health.

A food equally well suited to the requirements of young and old.

"There's a Reason" for Grape-Nuts

Sold by grocers everywhere

Lord Curzon Makes An Unexpected Attack On League of Nations

LONDON.—An unexpected attack was made on the covenant of the League of Nations in the House of Lords by Lord Curzon, secretary of state for foreign affairs. He declared that many existing international difficulties were due to the Allies having taken the wrong turning in the making of peace and he uttered a strong appeal for the United States' utmost co-operation with the Allies.

The foreign secretary, in the course of a general discussion on mandates admitted that parliament was entitled to more information, but he said this was a subject involved in obscurity. The language of the covenant was such that not even a trained lawyer knew what it meant.

Lord Curzon was inclined to think there was a mistake in policy when the Allies met in Paris, in their extreme desire to get the League of Nations on the international statute book. They rushed almost with precipitation, he said, to discuss questions which it now was seen would better have been solved by being postponed. He could not help holding the opinion that if, instead of taking up better regulation of war, they had at the close of the war endeavored to secure the peace of the world as it then was and "we should have been much further advanced in the conditions of peace than we now are."

Canadian Coal Sent To France

Ships Unable to Obtain Coal From British Ports.

LONDON.—Ten steamers have delivered cargoes of Canadian coal at Cherbourg, France, according to the correspondent of the Times. This coal, the correspondent says, is being used to bunker ships which are unable to obtain fuel in British ports owing to the miners' strike.

Denounce Sinn Feiners

Addresses Given at Meeting of Irish Colonial in Toronto.

Toronto.—A meeting was held in Cook's Presbyterian Church here to celebrate the opening of the Ulster Parliament and a number of addresses were given denouncing the Sinn Fein in the United States as propagandists whose aim was to create friction between America and Great Britain to destroy civilization.

Rev. Dr. McFadden, president of the Ulster Society of Pittsburgh, said that the bulk of the people of the United States are heart and soul with you in the belief that the Sinn Fein in the United States have absolutely no right to interfere in the affairs of Great Britain or attempt as they are doing to break up the peace of the world.

Chinese Provinces Hostile

Canton.—Hostilities have broken out between the provinces of Kwangtung and Kwangsi, in Southern China. The Kwangsi forces began the fighting by firing the first gun in the Ling Shan district. British ships are submitting to search in the west river at Canton through the operation of army and customs officials.

Brilliant Scene Marks The Opening Of Ulster Parliament

King George Makes Plea For Peace Between Two Branches of Irish Race.

Belfast.—The opening of the Northern Parliament by the King, who was accompanied by Queen Mary, was carried out with all the pageantry and ceremony with which formal actions of British sovereigns are surrounded. The King himself wore the uniform of an admiral, with the blue sash of the Order of the Garter across his breast, while the Queen, who looked extremely pale and nervous, was in white satin, without any insignia of her rank. But a string of pearls was about her neck and large clusters of diamonds and emeralds shone from her collar and brooch.

A real modern note was struck by the King's speech, which he read in a strong, clear voice, emphasizing the points which he wished to impress on the audience. His plea for peace and conciliation between the two branches of the Irish race fell on welcome ears, for in no part of Ireland is peace more desired than in Ulster, where business has suffered greatly by the strife throughout the country and by

Albania Appeals To League of Nations

Ask for Public Hearing of Grievances Against Greece.

Geneva.—The first case in which the competency of the League of Nations in international differences is questioned, has arisen in connection with Albania's demand that Greece and Yugoslavia evacuate Albania territory.

The Albanian delegation here has filed a memorandum with the league in which the Albanians reiterate their grievances against Greece and Yugoslavia and ask for a public hearing on them. Efforts are being made by the Greek and Yugoslav representatives to take the case out of the hands of the league and have it settled by the Council of Ambassadors on the ground that the ambassadors already have occupied themselves with these questions and are better able than the Council of the League of Nations to deal with them.

Date Set For Alberta Election

Premier Stewart Makes Announcement and Issues Manifesto.

Edmonton.—Writs are issued calling for a provincial election in Alberta to be held on Monday, July 18, with nominations one week earlier, on Monday, July 11.

This announcement was made by Premier Stewart after full consultation with the other members of the executive council. The official manifesto to the electors of the province was also given out by the Premier outlining the reason for the holding of an election and the policies upon which the Government appeals to the province for support.

Sixty-one provincial constituencies will be involved in the election, provision having been made at the last session of the legislature for five members each at large for Edmonton and Calgary, instead of three members as formerly. Medicine Hat was given two members instead of one.

The last Legislature consisted of 38 members, including two seats for soldiers' representatives at large, these being abolished under the amendments of last session.

Instead of being deferred as in previous elections the northern constituencies of Peace River and Athabasca will vote on the same day as the remainder of the province this time.

Press Misquoted Admiral Sims

Washington.—Rear Admiral William S. Sims reported personally to Secretary Denby that he had been misquoted in press accounts of remarks made in London touching on Sinn Fein sympathizers in the United States. The officer was recalled from leave of absence to explain these remarks, and Secretary Denby directed him to make a written statement giving a correct statement of what he had said.

This May Mean Cheaper Money

Ottawa.—News of the reduction in the Bank of England discount rate to 6 per cent was received with interest by the financial officials here. The Minister of Finance had no comment to make on the reduction, but it was pointed out by an official that banking interests were more directly concerned. Another official stated that as London was the gold market for the world, the Bank of England acted as a barometer in the supply of available. Cheaper money would result from the reduction.

U. S. Would Welcome Canadian Envoy

Appointment Will be to Interest of Both Nations.

New York.—The United States will be pleased to see a Canadian minister at Washington says the Tribune commenting on reported statements before the Imperial Conference.

"The new Canadian minister will apparently be a member of the diplomatic corps on the same footing as the ministers from other American or European states," the Tribune says, and concludes: "Whatever the nature of the changes in Canada's external relations, the United States would be pleased to see a Canadian minister in Washington and a United States minister at Ottawa. We have the same broad interests and the same world point of view as our northern neighbors. It is to the interest of both nations that they should be brought into still closer economic and political co-operation."

Denounces Handling Of Immigrants

Director of Protective Association Says System Is Wrong.

Ottawa.—Denunciation of the system of handling immigrants arriving in Canada was again made by Abbe Philippe Casgrain, director of the Immigration Protective Association here. The abbe cited instances where whole families have been deported and returned to the Old Country where they have no homes now to go to, and where they must start life again under worse conditions than ever, having wasted their savings in a useless and expensive voyage.

The abbe suggested that some way should be devised of officially examining immigrants in the Old Country.

Interest Shown In British Census

Statisticians Believe Population Has Grown Despite War Losses.

London.—Statisticians are looking forward with unusual interest to the returns of the British census and wondering what the war has really done to the British Isles. They believe the population has grown appreciably despite war losses, largely because emigration was checked by the war.

The first British census was taken in 1801 and has been repeated every ten years since then. This is, therefore, the thirteenth census of British Isles. Over 38,000 enumerators are engaged.

Settlers For B. C. Will Be Selected

Choicest Lands In Province Offered As Inducement.

Victoria.—Hand picked settlers are to be brought to British Columbia in large numbers to fill up the vacant lands in northern and central parts of the province, according to plans just completed by owners of large areas, it is stated. Most of the owners of these lands are in England.

Some of the choicest lands in British Columbia will be offered to settlers, who will be given their choice of locating in the Bulkley or Nechako valleys, or in the Vanderhoof, Prince George and Lillooet districts.

People Give High Ancestral Honor. London.—Benares, near Mead, Scotland, the ancestral home of Field Marshal Earl Haig, from which he takes a part of his title, has been purchased by public subscription and has been formerly handed over to him. His Lordship, in a moving letter of thanks, said: "An old dream of mine rather than a hope has been realized in this gift."

Ulster Parliaments Adjourn

Belfast.—Both houses of the Ulster Parliament have adjourned until September 20. The senate, before adjournment, nominated six members, including a peer and a laborite, to the council of all Ireland, to be established under the Home Rule Bill.

Opens Irish Parliament

King George V, who, accompanied by Queen Mary, visited Belfast, and delivered a message to the Irish people.

Active Immigration Work Is Delayed

Settlers Will Not Be Brought In By Western Canada, Colonization Association Until The Provinces Pass The Desired Land Listing Legislation. Preparatory Work Will Continue.

At a conference between the Eastern and Western Directors of the Western Canada Colonization Association it was decided that the successful functioning of the Association depends upon the working out of a joint land settlement plan under which the efforts of the Federal and Provincial Governments will be effectively co-ordinated. Nothing short of such a plan will afford this Association a real basis upon which to carry out the vital national undertaking for which it was created. It is felt that the organization would be unwise to expend a large amount of money in securing high-class settlers only to find the lands increased in price on their arrival. It is realized that promises and statements made to intending settlers must be fully carried out.

Until these suggestions are given effect so that there will be a reasonable assurance of results in actual land settlement, the directors do not feel justified in authorizing the expenditure of privately subscribed money which would necessarily be involved in a first year's programme. The obligations of the Association to voluntary financial supporters of this movement are such that it must not spend funds generously donated until the pathway of effective colonization is reasonably clear.

In the interval which must elapse before the proposals can be put into effect the Association will continue to press for the co-ordination and legislation necessary, and endeavor to complete the full subscription list of \$1,500,000. The directors hope that the Federal Government will be represented at a proposed conference of Western Premiers and that as a result a uniform plan will be put into operation which will solve the unoccupied land problem and enable the Association to get to work.

Before leaving for Vancouver the Managing Director, Major-General A. D. McKee, C.B., made a brief statement to the press, in the course of which he said:

"I agree with the decision unanimously reached by the Eastern and Western Directors after the most serious consideration of all the circumstances. I am very proud of the splendid support which I have received from the members of the Board, particularly in regard to my land listing plan. In their view, as in mine, the legislation asked from the three Prairie Provinces is absolutely necessary to success. This or similar legislation must be put into effect before the unoccupied land problem is solved. The participation of the Federal Government is most essential. During the interval the association, of course, will have no need for the services of a Managing Director in charge of actual colonization work. Although retiring from my connection with the Association I have agreed to assist in pressing for the proposed legislation before the coming conference of Western Premiers. Knowing something of past immigration movements to the prairies I make bold to say that if given the proper basis to start on the Western Canada Colonization Association has within it the power to greatly assist the Government in the colonization of our unoccupied lands."

W. N. U. 1374

Old-Time Yarns in the West

By O-GE-MAS-ES (Little Clerk).

(Continued)

The furs were untouched, being wrapped up in canvas, but half of a beautiful cow buffalo robe and half a rabbit skin robe were eaten. Never mind, I was too pleased to see the dogs again, so rewarded the boy handsomely and returned to Fairford in great style next day, the dogs in as good a humor as myself; and then I promised never again would we admit a stranger to our ranks.

When Chief Factor Archie McDonald ordered me to take charge of the Fairford Post, his instructions were to complete the new master's house as soon as possible. Then I was to remove everything of value in the old fort and burn the buildings, which had been up for many years. I was rather curious to know the why and wherefore as to burning the place, so asked him his reason. "Oh," was his reply, "there are some fool stories current at Fairford as to them being haunted, for some bloody rows took place there in the old drinking days."

Well, I reached Fairford all right and took possession of the place. I put an extra man or two on the new building and after settling down began making a few cautious inquiries as to what shape (if any) the spooks were supposed to take. Very little satisfaction was given me, but I noted that Indians and the usual hangers on did not like to be near or in the post after dark.

This establishment was built in the usual way in the form of a quadrangle and surrounded with a wall of hewed timber, at one end of the square the master's house and on each side various store houses, while the front was shut with the wall and large gates. The native men's houses stood at some distance away outside the enclosure. I and my cook, a Lewis man named Malcolm, were the only occupants of the fort at night; not though the only ones, as I always had my four famous dogs—Herald, Nero, Moro and Hero, who, anyone touched me, would have had a bad time of it, as they were exceedingly fierce if set on to any person or animal. I forgot to mention that a platform of heavy sawn planks ran all round the square and most of these were old and rotten so one had to be careful in stepping for they would tip up and come down with a bang.

One evening, when the place was all quiet, Malcolm came in from the kitchen and I saw by his embarrassed manner that there was something on his mind. "Well, sir, master," and that was as far as he could get. However, I encouraged him and bit by bit the truth came out. He wanted to go and sleep in the men's houses, and on asking his reasons, he said he kept hearing noises at night and also felt things moving, though he could see nothing. He hated to go and leave me alone, but he could not sleep the way things were going on. I finally

It was several weeks before the new residence was ready for occupancy, and during this time I constantly heard the same heavy tramping and other noises, and there was no doubt the dogs were affected, as generally they were joyous creatures always ready to sport or play with me. However, as no ill-effects occurred, I became used to the racket and yet was glad enough after vacating the premises to put a torch to the old fort.

During the same winter a mysterious light accompanied me for some hours on Lake Manitoba, which by its presence, affected my fearless dogs in the same way, but this I have described fully in a former article, entitled Indian Witchcraft.

Fire At Fort William.

Fort William.—Fire of an unknown origin destroyed one of the loading towers at the Canadian National coal dock, Port Arthur. The loss is estimated at \$15,000.

Alies Offer To Mediate.

Athens.—The Allied diplomats presented a joint note to the Greek Government, offering mediation in the Greco-Turkish conflict. The diplomats, declined to make known the text of their note.

Automobile Price Reductions Of Western Interest

All-Canadian Car Proves Best—New Rock Levels Anticipate Quantity Reduction.

Western Canada development depends so much upon the extended use of motor cars that recent price reductions interest everyone in practically every family in the West. That, for instance, of the new Overland to less than a thousand dollars at the Toronto office is of wide importance. New rock-bottom levels were calculated to be necessary if a complete return to normal conditions was to be accomplished. In the case of the company making the car cited, normal conditions involve factory production on a large scale.

This quantity production was attained last year. It will be remembered that when the Overland Company introduced the Model Four, the radical departure in spring suspension was looked upon as a marked development in light car construction. Much was, therefore, expected of this All-Canadian car. It has now had a year's proving by thousands of Cana-

dian owners, who bought it for its appearance and its quite evident engine efficiency and comfort. They have found it also possessed by unexpectedly great stamina and economy. Getting 25 to 30 miles to the gallon of gasoline appears to be the average experience of owners—some reporting even 35 miles. To transport thousands of miles with a single set of tires is also common, so that the All-Canadian car has thoroughly proved itself, perhaps nowhere more than in Western Canada.

The 1921 car has many improvements and according to Willys-Overland officials, they expect a demand sufficient to keep the factories busy right along. In fact, it is stated that it is upon this expectation that they have based their new prices. Reports from both Winnipeg and Regina branches of this company show a marked stimulation in business during the very first month of the reductions.

Scots Beat Vancouver.

Vancouver.—The Scottish professional soccer team defeated Vancouver amateurs 3 to 0 in a return match.

Australia Better Buyer Than States.

London.—Premier Hughes of Australia, in a speech here said that in 1920 Britain's colonies purchased \$180,000,000 worth of British goods. On a per capita basis an Australian, as a customer, was worth to Britain £18. American purchases from Britain in 1920 amounted to 14 shillings per capita.

THURSDAY, JUNE 30, 1921

When we open our hearts to others less fortunate in the world—when we cause the sunshine of good-will and understanding to break through the clouds of discontent, if only for one golden moment—then do we know the greater joy that life holds for us.—George Boswellton.

Seeking new markets for Western cattle now practically excluded from the United States through tariff legislation, Mr. F. J. Collyer, a director and Mr. F. M. Black, treasurer of the United Grain Growers' Limited, sailed last week for Great Britain. They hope to make arrangements so farmers' co-operative shipments of cattle can be carried through to Old Country markets. They are also to search out an outlet for Western beef on the Continent of Europe, wherever conditions are settled enough to make trade likely.

In the few weeks which have elapsed since the United States imposed a tariff of thirty per cent. on all cattle entering that country prices have fallen severely. This is a time of year when the run of cattle is light and the result on prices of the heavy run of cattle that begins in the fall is bound to be serious. Consequently the farmers' organizations are making every effort to find an outlet for export cattle before the fall run commences.

SUNFLOWERS AS A SILAGE CROP

Much interest is being taken in Canada and the United States in the value of sunflowers as a silage crop, particularly in districts where corn is not a reliable crop. The claim is made that sunflowers are a harder crop than corn, withstanding both drought and frost to a greater degree. Insofar as the claims put forth for sunflowers as a food for cattle are virtually of recent origin, experiments and investigation regarding them are practically in an introductory stage. It is interesting to note, however, that an analysis of sunflower silage fed at an Idaho agricultural experimental farm indicated that it compared favorably with corn silage. In Canada also studies of the relative value of sunflowers and corn for silage purposes suggest that in nutrition there is not any great difference, although corn is to be preferred where it can be plentifully and easily grown. Where this is not the case, sunflowers are an excellent substitute.

CLOVER LEAF NEWS

(Too late for last issue.)

A big crowd from Clover Leaf motored to Youngstown to hear the Hon. T. A. Cresser speak on Saturday, June 18.

Miss Doris McGinny goes to Swat's school this week while Miss Holy fills Miss McGinny's place in the Clover Leaf school. During examinations this is the requirements of the Department.

A lovely rain fell in this district on the night of June 15.

The crops around Clover Leaf and Coliholme are looking fine.

The Rev. Mr. Cummings has been called to preach at Clover

Leaf school every two weeks during the summer. Come out and hear him on Sunday morning, July 3, at 11 o'clock.

CLOVER LEAF OBSERVE U. F. A. SUNDAY

On Sunday, June 19, a large crowd of people met at the Clover Leaf school where the Coliholme local observed U. F. A. Sunday. Invitations had been extended to neighboring locals to join them on this day, and at an early hour cars and teams could be seen coming from all directions.

One of the important features of the day was the picnic dinner, the tables were laid in the old style picnic fashion, and a bountiful spread placed on them.

After the dinner the crowd adjourned to the schoolhouse where a good program of music, singing and speaking had been arranged. The two speakers for the day were Rev. Berry from the Nazareth church of Coliholme, and Mr. Mangles, of Youngstown.

Tuxis Ball Game

The Tuxis boys of Chinook, motored to Youngstown on Saturday last, where they easily won from the home team the second league game of the season, by a score of 5-3.

This gives each team one game as Youngstown took the first game here on June 3.

Now's the time to paint that car. We have Effetto Auto paint, Top Dressing and Body Polish. See us for prices.—The Service Garage, Chinook.

Harvest Already Started

Harvesting operations have already started on the Noble Foundation, Limited, at Nobleford. Some eleven binders are at work during the last week cutting the 2,500 acres of Rosen rye, a new variety which is being tried out in Alberta for the first time. This rye is the earliest grain which has been raised in the province, and is 30 days ahead of any other rye. The Rosen rye requires very little moisture and due to this fact the experiment tried out by this company is expected to prove of great benefit to the south country. Next year it is likely that a good many farmers will grow this grain.

The U.F.W.A. desire to hold an organization meeting on Saturday, July 2, at 8:30 p.m. in the Chinook school. All desiring to join are invited to be present.

At the threshold of Normalcy!

New Marking Regulation A Guide To Purchasing Canadian Made Goods

"The marking of goods with their country of origin is going to have an excellent effect on British trade in Canada, and I only wish it could be brought into force earlier than September 1st," states Capt. Ernie J. Edwards, Senior British Trade Commissioner, Montreal, in reply to a request for his views on the important change in our importing system, to enable Canadian customers to know just what goods they are buying. "Examples of foreign goods masquerading as British or Canadian are continually being brought to my notice. Some of these deceptions are of no moment, and some are made innocently, such as the Japanese manufacturer who asks his goods with the word 'Nippon.' Nippon is their native word for Japan, but probably to most people it appears as the registered trade name of a Canadian or British maker."

"Other cases of improper marking are intentionally fraudulent," continues Capt. Edwards, "such as the marking of German manufactures with English names, and the names of English cities. I get not a few samples of German manufactures, for instance, with the name 'Sheffield' on them, as if they came from the celebrated cutlery centre. That is the rankest kind of fraud, done deliberately to mislead buyers. At one time it was possible to detect the fraud. If one was acquainted with the appearance of German printing, which, even in Roman type, is different to English; but some German printers have secured fonts of type, so that the means of detection goes, and as they have learned the need of using good English translators it is often not possible to see even from their catalogues where the goods were made."

"As the minister of finance remarked, in his budget speech, the Canadian public has a right to know from whom they are buying, and if you go into any store and ask for Canadian or British goods you will quickly find how hard it is to find them. In the ramifications of business, goods pass from one merchant to another, and finally to the retailer, who cannot possibly tell, in many cases, where the goods he has on his shelves were made."

"In Canada I like to buy Canadian goods, and do whenever I can find them, but it is at present very hard work to do so; and sometimes I accept things as Canadian which eventually turn out to be American manufacture. We have to support our own manufacturers, Canadian as well as British, since on them depends the livelihood of so many of us. The more foreign goods we buy, the less we can make ourselves, and the result, if persisted in, would be the extinction of British as well as Canadian manufacturing industry."

"When the marking regulations come into force all goods made abroad will be marked legibly in English or French with the names of the country they are made in, to prevent chance of injury. Some will be stamped, others branded, while things that cannot be so marked will bear labels. When the regulations are in full working order you will be able to tell Canadian goods because they will bear no country of origin marking. Imports, on the other hand, will all bear the necessary mark, and to ensure that they do so are, I understand, to be examined by Canadian Customs, and without any chance of the mark being altered here, after importation."

"For awhile, British and other manufacturers abroad, will experience some little confusion," said Capt. Edwards in conclusion, "and they will certainly be put to some expense in making arrangements for marking their product, but they recognize in the United Kingdom that it will be very much to their advantage in the long run, and are getting ready to comply with the Canadian requirements in this respect. Those who by accident or design neglect to mark their product as laid down will be quickly brought to book by Canadian Customs, who are to hold unmarked goods, mark them at the importers expense, and levy an extra duty of 10 per cent. on them."

Death of Domestic in the East.

The death of domestic servants in the eastern provinces is so great that it is no unusual thing when a party of these greatly desired household helpers are expected from England for the prospective employers to proceed to the emigration sheds on the arrival of a steamer and attempt to hire them there.

A large office building just completed in Detroit has more than four miles of corridors.

Canadians Should Be Optimists

There Is No Danger of Nation Going Bankrupt.

Be an optimist! Anyone can smile and see a great future for Canada when prices are jumping, every one is prosperous and we have a fresh supply of millionaires for breakfast every morning.

It takes a different brand of confidence to smile when prices drop, the dollar lumps up as if seen through a magnifying glass, and the breakfast food has changed from millions to bankruptcies.

But from all over Canada come reports that indicate a banner crop. The starvation that stares some countries in the face gives the Dominion a wide berth. There is work for everyone who is not too proud or delicate to work on the land.

And all the while Canada's national resources are increasing in value. There is gold in the Northwest, oil in the Arctic circle, and billions of tons of coal waiting to be mined in the western provinces.

It is a period of univ. poverty. The world is strewn with bankrupt nations. And Canada looms up among them as one of the few nations—if she is a nation—that can look to the future with a full stomach and a satisfied smile.

Be an optimist!—From the Toronto Telegram.

Reforestation Plans

Quebec Company Will Adopt Regulations to Insure Permanence of Forest.

An extensive plan of reforesting its timber limits has been decided upon by the Chateaufort Pulp Company. The company has obtained the services of the Quebec Forestry Department to make a complete survey of its timber reserves and the best method of their exploitation. It is said that the company will adopt most rigid regulations in order to insure the permanence of their forest capital. The outline of the project has already been adopted and the company has lately sent one of its employees to Europe, where he will study European methods on the ground and consult with the best known practitioners in this field.

Has Station On Farm

Alberta Farmer Was Once 35 Miles From Railway.

James R. Sutherland, owner of what is said to be the largest irrigated farm in Alberta, has taken into partnership H. R. McCrindle, and the farm will be operated by an organization known as the Berry Creek Farming Company. The farm, located at Wardlaw, comprises 5,000 acres, and to date about \$100,000 has been expended in irrigation works, including twelve miles of main ditches. When Mr. Sutherland first took up this land he was thirty-five miles from a railway. Now he has a station on his farm.

Growth Of Saskatchewan

Province Has Seven Cities and Seventy-Eight Towns.

Saskatchewan's growth, since becoming a province in 1905 is very clearly illustrated in recently published figures. In 1905 there were only three cities in the province, whereas there are now seven. Towns have increased from sixteen to seventy-eight; and the number of organized villages from sixty-three to three hundred and thirty-seven. These were twenty municipalities in the newly created province which have grown in number to three hundred and one at the present time.

Vancouver Firm Secures Contract.

Between fifteen and twenty tenders have been submitted for the earthwork construction of the Leithbridge Northern irrigation scheme by some of the largest contracting concerns in Canada and the United States, and the contract awarded to a Vancouver firm. The contract will entail the construction of fifty miles of main ditches for the 108,000-acre project.

Road Work In Saskatchewan.

Road work totalling close to two hundred miles is now in the course of construction, or about to be commenced, as part of the Federal aid scheme. Some of the work is being done under contracts awarded by the Saskatchewan Department of Highways, while other sections are being constructed by departmental day labor gangs.

British Settlers Arrive

The Majority Had Farming Experience and Considerable Capital.

The Canadian Pacific steamer "Minicoua," which docked at Montreal recently, had a total passenger list of 1,485, almost entirely British and of a very high standard. About eighty per cent, it was stated, were bound for the land, the majority having had previous farming experience and being in possession of considerable capital.

Seeing Nature With The Ear

Blind Man Names Trees By Sound of Leaves.

A man in the north of England lost his sight at the age of 22. He took to walking about the roads and listening to sounds of life around him. Now he can recognize the trees by the sound of the wind blowing their leaves; and the noise of the rain upon a field tells him whether it is fallow or cropping.

He was engaged by the Park Committee of three northern cities to name the trees in their parks for them.

This remarkable instance of the "second sense" possessed by the sightless, was related by Mr. Adolphus Duncombe, President of the Guild of Blind Gardeners, of England.

Insurance In Saskatchewan

Total Amount in Force in 1920 Was \$208,006,921.

The total amount of life insurance in force in Saskatchewan in 1920 was \$208,006,921, as compared with \$173,506,392 in 1919, according to statistics compiled by Arthur E. Fisher, insurance commissioner for the province. The amount written during the year was \$57,591,347. Premiums collected during 1920 were approximately a million dollars more than in 1919, premium collection in 1920 being \$6,654,588, as compared with \$5,547,212 in 1919. The claims incurred in this province last year amounted to \$872,299, while the claims paid totalled \$788,102.

Gold Bullion From Manitoba Mine.

Fifteen pounds of gold bullion, worth \$3,000, said to have been reduced from 25 tons of ore, have been brought to Winnipeg from Northern Manitoba by the president of the Canadian Mining and Leasing Corporation. The gold was taken from the "Gold Pan" property at Rice Lake.

The low coast regions of Africa are almost everywhere unhealthy.

Beauty without modesty is a sorrow forever.

Buenos Aires Goes Into Business

Making Effort to Reduce High Cost of Living.

The municipal government of Buenos Aires has gone into the grocery and butcher business in an effort to decrease the high cost of living. The municipality is buying meat, vegetables, bread, sugar and other foodstuffs and placing them on sale in various markets throughout the city, at the same time publishing in the newspapers every morning the prices at which each article will be sold during the day and giving the location of the markets which have been stocked with municipal supplies.

For several months the municipality has been selling shoes and a few other articles of clothing for men, women and children in the city dispensary. Clothing prices have been declining recently, but the costs of foodstuffs are much higher than the municipal authorities think reasonable, and they hope to bring about a general lowering of these costs by underselling the trade.

Agricultural Survey

Manitoba to Make a Thorough Investigation of Rural Life Conditions.

Plans are under way by the Manitoba Agricultural College for a survey of the province as regards effect of weather on production, location of dry areas, successful methods of dry farming, location of frost areas, investigation of kinds of crops best suited to them, types of soil in various territories, insect and plant diseases, difficulties met by stock breeders, various types of power used in cultivating small and large tracts of land, and a thorough investigation into rural life conditions.

A Huge Undertaking

The work of deepening the St. Lawrence shipping channel from the present 30-foot level to 35 feet is progressing steadily, with dredgers continually employed in the river. Most of the deepening has been done between Montreal and Three Rivers and this will be continued up to Quebec, taking years to complete.

Irish Settlers For Manitoba.

Two brothers and their families, numbering in all eighteen persons, arrived at Montreal recently from Dublin, Ireland, on the Canadian Pacific liner "McGowan." They have purchased two thousand acres of farm land in the Lake Francis district of Manitoba.

Give your local merchants a chance. Buy at home.

Experiments With Plants Result in Producing Rust Resisting Varieties

Polish Keepsakes To Be Returned

Have Been Preserved in Switzerland For 150 Years.

The Polish Government is arranging to return to Warsaw about 150,000 national keepsakes removed to Switzerland in 1771 to prevent their falling into enemy hands. The keepsakes were in control of what is known as Congress Poland.

Among the relics of olden times is a sceptre of one of the Polish kings. The keepsakes are to be added to the national museum in Warsaw which has been established now that Poland has regained her freedom.

Shipping B.C. Berries to England.

At the request of shippers of British Columbia, an investigation has been made by the Canadian Trade Commissioner in London, England, as to the possibilities of selling raspberries and strawberries to English jam manufacturers.

Great interest was evinced in the project, experimental shipments will be made, and there is strong possibility of a substantial trade being built up in shipping berries in a frozen condition to the overseas jam market.

Unique Industry For B.C.

There is a possibility of an Angora woolen industry being started on Vancouver Island, utilizing the wool from the Angora rabbit which, it is claimed, can be spun into the finest and softest wool. The rabbits from which the test was made, were bred at Prospect Lake, a short distance from Victoria.

Whisper slander to your best friend, and though you stand on a hill the next day and proclaim in a loud voice that it is not true, you cannot call the bad story back.

Patronize your local merchant and thereby help to build up your home town and community.

THE GRASSHOPPER MENACE

Illustrating the Destruction Caused by Hoppers in a Wheat Field.

Fisheries Production

Dominion Fisheries in 1920 Show a Marked Decrease.

The fisheries production of Canada for the year 1920 reached a value of \$49,321,217, according to a return just issued by the Dominion Bureau of Statistics. This showed a decrease of \$7,000,000 from the previous year. British Columbia's fishing industry accounted for \$23,300,000 of the total, and that in Nova Scotia, \$12,700,000. Salmon is by far Canada's most important fish, the lobster coming second, and cod, halibut and herring in the order named. Nearly 2,000,000 worth of white fish were marketed.

Expenditure For Manitoba Highways

The estimated expenditure on road construction in Manitoba this season is \$3,493,850, according to A. McGillivray, highways commissioner. Municipalities will contribute approximately fifty per cent. of the cost of construction.

Storing Apples in Gas

New System Said to be Superior to Cold Storage.

In storing apples there is a very interesting alternative to cold storage, known as "gas storage." The apples are placed in an airtight chamber filled with the gas produced by the "respiration" of the apples themselves. An electrical instrument is used to determine whether at any time the proportion of carbon dioxide in this gas becomes excessive, and when that condition occurs air is admitted to dilute the gas. The air is kept in slow circulation by its own temperature variations and means are taken to remove excess of moisture. It is stated that this system doubles the time during which apples can be kept in good condition, and that the cost of working is very much below that of any kind of cold storage. The merits of the system are being closely studied by the British Investigation Board.

W. N. U. 1374

Prepare For Grasshoppers

Alberta is Organized to Rid the Country of Hoppers.

Alberta farmers in the southern districts are waging war on the grasshoppers, and according to the reports by H. A. Craig, deputy minister of agriculture, following a tour of the southern portion of Alberta, the farmers have opened up an offensive that they are confident will carry them to victory. Some twenty men under the Department of Agriculture are working in the affected districts, organizing the municipal districts, holding meetings, establishing mixing stations, and in every way spreading information and getting ready to wage a successful campaign.

Air Passenger Service.

Passengers from Great Britain to France may now go by air at one hundred miles per hour at seven cents per mile. Who would have credited this ten years ago?—Victoria Times.

Byng of Vimy

New Governor-General Possesses Tact and Good Sense.

Why should Hon. Charles Murphy doubt the ability of Lord Byng to perform his duties as governor-general of Canada because he is a military man? Lord Minto was a military man, and he was a very good governor-general both in Canada and in India; and that good old soldier, the Duke of Connaught, was one of the best governor-generals we ever had in Canada. Experience in statecraft and diplomatic skill are not required in a governor-general so much as tact and good sense, and Byng of Vimy has shown that he possesses these good qualities in abundance.—Hamilton Herald.

German Vessel on St. Lawrence.

The Canadian Pacific liner "Empress of Scotland," formerly the German "Kaiserin Augusta Victoria," has been officially assigned to the St. Lawrence route. The vessel, which is 25,000 tonnage, will make her first sailing in July. With luxurious cabin equipment, built in 1905 especially for the New York run, she will be operated as a three-class boat.

When you hear a woman say that she is on the sunny side of forty, it means that she is trying to keep her age shady.

ROYAL YEAST CAKES MAKE PERFECT BREAD

For many years physicians have prescribed yeast for the correction of certain physical disarrangements, such as boils, constipation, pimples and intestinal troubles. Royal Yeast Cakes are rich in vitamins and serve to tone up the blood. Royal Yeast Cakes are on sale in practically every grocery store. Send name and address for free copy "Royal Yeast Cakes for Better Health."

MADE IN CANADA

Buy Cascara Bark

Growers in B.C. Can Build Up Large Business.

Recently 5,000 tons of Cascara bark was shipped from Vancouver to British and United States markets. Reports from the United States drug centres say that a great industry awaits the growers of Cascara shrubs and Cascara bark on the British Columbia sea coast.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a tonic, purifier, and acts through the blood upon the mucous surfaces of the body, thus restoring inflammation and restoring normal conditions. All druggists. Circulars free. E. J. Cheney & Co., Toledo, Ohio.

Pelts of coyotes were used during the war as trench coats, for British soldiers.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Boston Or Bust.

A lecturer in Boston told his audience that the earth is 360,000,000,000 miles away from the centre of the universe. That was a very nerdy thing to say in a town which calls itself the hub.—Detroit Free Press.

Could Not Sleep

Mr. Earnest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine relieved me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, \$4 for 2 1/2 doz., all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Dr. Chase's Nerve Food

World Happenings Briefly Told

Prisoners in Denver County Jail gave the money they had saved for cigarettes and food to the relief fund for Pueblo, Colo., flood sufferers.

Robert E. Tegler, an old-timer of Edmonton, and sole owner of the Tegler Block, the largest building in Edmonton, died recently.

When plates of ice cream were served to the 1,700 immigrants at Ellis Island, N.Y., the diners thought it a new kind of butter and spread it over their bread.

If both parties, by mutual consent, break an engagement to marry, the man is entitled to the engagement ring, an Ashbury Park, N.J., court ruled.

The Dominion Government has decided to take over and carry to completion the shipyard and the unemployed dock of the Victoria Shipbuilders, Limited.

Seeds about 2,000 years old found in the hands of an Egyptian mummy, have sprouted in the conservatory of Wm. Patterson, of Quincy, Mass., and are beginning to bear blossoms like those of the sweet pea.

Gambling in long distance telephone calls is the latest industry in France. The number of phones is so inadequate that speculators have been buying up long distance calls to advance and holding them in at fabulous prices.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried, and proved. It is one of the world's most efficient remedies for sore throat, lumbago and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Lake Stocked With Fish.

The Dominion Fisheries Branch report during the season just closed shows that upward of 268,000,000 young whitefish were liberated in the Great Lakes and the Lake of the Woods. A large proportion of the eggs are secured from the commercial catch of fish which, but for activities of the department, would be wasted. The Sarnia hatchery this season set 12,825,000 whitefish eggs to British Columbia.

Minard's Liniment Co., Limited.

Sir,—I have used your MINARD'S LINIMENT for the past 25 years and whilst I have acquired other liniments I can safely say that I have never used any equal to yours.

If rubbed between the hands and inhaled frequently it will never fail to relieve colds, coughs, etc. It is also the best for bruises, sprains, etc.

Yours truly,
J. G. LESLIE,
Dartmouth.

Arctic Explorer Returns

Amundsen is Back After Winter With Lechoud Stary. Captain Amundsen arrived at Nome, Alaska, recently. His ship, the Maud, which wintered at Cape Serge, Siberia, lost her propeller in the ice, and she is expected to reach Nome some time this summer for repairs. The explorer, noted for his discovery of the South Pole, and his many Arctic and Antarctic voyages, said he would continue his efforts next year to reach the North Pole by drifting with Arctic ice floes as soon as repairs to his vessel were completed. He spent the winter on board the Maud with one native and three white companions, and said the party experienced few vicissitudes. He reached Nome on the trading schooner Herman, which picked him up at East Cape, Siberia.

The Dominion Agricultural Returns

Dairy Butter Industry Has Increased During the Past Decade.

The value of all field crops produced in Canada for the year ending March 31, 1920, was \$1,812,915,500, and the value of dairy products \$247,531,552. The number of horses in the country is given as 5,667,369, the number of milch cows as 5,548,437, other cattle as 6,536,374, sheep as 3,421,938 and swine as 3,040,070. During the year 3,788,138 pounds of wool were graded by farmers co-operative organizations. The dairy butter industry has increased during the past decade from 5,478,304 pounds to 25,356,711 pounds.

New Road for Peace River.

An agreement has been concluded with the Canadian Pacific Railway, by which that company will construct and operate the Central Canada Railway extension across the Peace River into the Waterhole district. When completed the new road will form part of the Edmonton, Dunvegan and British Columbia Railway.

Keep Minard's Liniment in the house

DISCOVERED TRUE REMEDY FOR SYSTEMATIC CATARRH

A bad case of Catarrh is not an easy thing to treat, and a remedy that makes good, deserves great credit. Catarrh is certainly fixed up. Chas. H. Webb, who writes from Woodstock: "For a number of years I was troubled with Systematic Catarrh. Nothing helped me very much. I used Catarrh Inhibitor and got relief. To build up my system, I used Ferrozone. This combination can't be beaten. They made me well." Your case may also be bad, but Catarrh will do for you what it did for Mr. Webb. Two months treatment \$1.00, small size 50c. All dealers or the Catarrh Inhibitor Co., Montreal.

Airmen At Camp Borden

10,000 Airmen Spending a Month in Camp at the Government's Expense.

"Refresher" flying promises to be one of the most popular pastimes in Canada during the summer months this year, when Camp Borden will be in full swing again. Approximately 10,000 airmen in Canada will avail themselves of the opportunity of spending a month in camp at the Government's expense. Since the "refresher" courses were inaugurated at Camp Borden about eight months ago, the ex-air force officers' have done over 2,200 hours of actual flying, covering a distance of approximately 200,400 miles.

ALMOST HELPLESS FROM ST. VITUS DANCE

The Muscles of the Hands, Face and Body Affected.

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is common with children, and attacks girls more frequently than boys. Irritability is frequently one of the first signs noted. The child frets, is quarrelsome and does not sleep well. The jerky movements that characterize the disease come a little later. The whole body jerks spasmodically, and in severe cases the power of speech is affected. A child should not be allowed to study, but should be kept quiet, given a nutritious diet, remain out of doors as much as possible. Dr. Williams' Pink Pills will help the blood restore the shattered nerves. The value of these pills in cases of this kind is shown by the following statement from Mrs. Frank Reynolds, Windsor, N.S., who says: "When a young girl is suffering very severely from St. Vitus dance, I could not keep still for a moment. If I tried to handle dishes I broke them, and could not safely attempt to hold a thing in my hand. No matter what was done for me I could not control the twitching in my face and body. My parents gave me several remedies, but they did not help me. Then one day my father brought home a half dozen boxes of Dr. Williams' Pink Pills. After two boxes had been taken there was an improvement in my condition. By the time the last box was gone, to my own great joy and relief to our family, my condition was normal, and I have since enjoyed good health. I have lost an opportunity to say a good word for Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Extending Saskatchewan University. The contract has been awarded for the erection of a two story wing to the engineering building at Saskatchewan University costing approximately \$100,000.

I SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and I was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now as well as I ever was, and do all my own work. I recommend it to others, and give you permission to publish this letter in your little book of testimonials."—Mrs. D. CASSADY, Box 461, Paris, Ont.

Why women will continue to suffer so long is more than we can understand when they can find health in Lydia E. Pinkham's Vegetable Compound. For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc. If you want special advice write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A Summer Frock Of Batiste

By Marie Belmont.

This charming dress is one that you could easily copy if you are at all gifted in the dressmaking line. The fabric from which it is evolved is a rose colored embroidered batiste which is extremely dainty. The bodice is cut on rather long-waisted lines that follow closely the lines of the figure. The skirt is unusually full and is finished with a scalloped hem. This is outlined with rose linen bands that are exceedingly fashionable. They are also used with equally good effect on the short sleeves and the neckline. A vestee of lace and a rose ribbon girdle complete this pleasing creation.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

Plan Your Vacation Trip

Special Summer Tourist Fare to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise and Glacier, where the Company maintain splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route in one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and as all are equipped with open-top observation cars through the mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Tourists From United States.

Two thousand United States automobiles crossed the International Border at Blaine into Canada between May 27th and May 30th. This is the first big rush of tourists for the 1921 season.

Not Easily Hit.

Lloyd George is the only statesman who has learned anything from the war. He has mastered the art of going in a zigzag course to avoid torpedoes.—New York Evening Post.

Minard's Liniment Lumberman's Friend.

Cactus Makes Natural Compass. One variety of cactus, found in deserts always points to the south, thus forming a natural compass.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to be seized with the spasms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought relief to many. It is known and prized in every section of this broad land.

Every dollar spent in your home town is a boost for the community.

Mrs. Doyle Forced To Live Entirely On Bread And Milk She Declares

"I think it is enough to make any one happy to enjoy the splendid health I do now," said Mrs. John Doyle, 123 John St., North, Hamilton, Ont.

"Last winter I had the flu and, as I had been in a badly rundown condition for several years, it just seemed to wreck my whole system. All through the winter I was down in bed half the time and instead of getting better, I seemed to get worse. My stomach was so badly upset that I had to live entirely on bread and milk. If I ventured to eat anything else at all I would simply suffer agony."

"I would have terrible pains in my stomach and would bloat up so bad that I often felt as if I was suffocated."

My nerves were worn to a frazzle and I had frequent headaches. I went to bed tired, got up feeling tired and all through the day hardly had the strength to do a thing.

"But I'm so glad I tried Tanlac, because my suffering is all over now. I just feel splendid, eat whatever I wish and never have a touch of indigestion. My nerves are steady and I am free from headaches. I sleep perfectly sound and just feel so much stronger than the housework seems easier than ever. My daughter has taken Tanlac since it restored my health and it has helped her just like it did me. Tanlac has certainly been a blessing in our home."

Tanlac is sold by leading druggists everywhere.

Airship Launched For Japan.

Messrs. Vickers have launched from their airship shed at Barrow, an airship for the Japanese Government. She is of the Sea Scout class, carrying a gondola and a small crew. A trial flight over Barrow has been successfully accomplished, a high speed being reached.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

A homing pigeon under average conditions travels about 40 miles an hour.

Of Some Use.

Short skirts are coming in much condemnation at church conferences, but it has remained for Chicago to report that short skirts have caused a much smaller street accident record among women and a much larger one among men. There is a "Safety First" argument that seems to have been neglected in the denunciations.—Toronto Mail and Empire.

The little town of Verdes, in the kingdom of Dahomey, is celebrated for its temple of serpents, a long building in which the priests keep upwards of 1,000 serpents of all sizes.

CLARK'S Corned Beef

A good nourishing food, ready to serve and inexpensive. Try it cold or heat in slices and serve with fried eggs instead of ham. No bone, no gristle, no waste and every can with the Government guarantee of purity. Clark's Good Thingum is made from Canadian Farm Produce and sold everywhere in Canada.

FREE

1000 WATCHES ABSOLUTELY FREE. Why pay \$50.00 for a solid gold watch when you can obtain a watch free, that will equal for time any solid gold watch made. Fill in correctly the missing letters in the following phrase, and win a new watch with a DASH.

A. McAlister**Agent for I.H.C. Farm Implements****Are We Giving Our Children
A Chance?**

To the Editor,
Chinook Advance.

Dear Sir:

Now that the examinations in our Consolidated School are over it may be pertinent for me to crave a little space in the columns of your paper to voice the claims of our Consolidated School children to one of their rightful heritages within our province.—The right to have access to every book provided by the taxpayers of this Dominion through the extension branch of our Provincial University. We read a lot of glowing accounts of the great service rendered to our school through the Library service of our University, but, where are the books! in Chinook Consolidated District? Whose hand is shading the light of knowledge which should be within asking reach of every boy and girl in this district? Are our School Trustees so worried over dollars and cents that they forget the

necessity of providing access for our children to the great treasures of literature which are stored in our Provincial Library? The question on the exam. papers of every grade in the recent exams showed the great need of the pupils' deeper study of history, arts and literature. The books are public property. Why not let our children have a chance to read them?

Yours for a Library Committee in our District.

JAS. PETTIGREW

Miss M.E. Ethridge left Tuesday for Calgary where she will visit her parents.

J. R. Miller is a visitor in Calgary this week.

PROVINCIAL ELECTION**IS JULY 18**

Writs were issued on June 22 calling for a Provincial election in Alberta to be held Monday, July 18. Nominations to be one week earlier, Monday, July 11.

J. A. McColl Will Contest the Acadia Constituency as Independent Candidate

J. A. McColl, who has represented the Acadia constituency for the past eight years, has decided to contest the riding in the forthcoming election as an independent candidate supporting the Stewart administration.

**U.F.A. Convention
At Oyen July 6**

The Acadia U.F.A. convention will be held at Oyen on Wednesday, July 6, at 10 a.m., for the purpose of nominating a candidate to contest in the provincial election on July 18.

**CHINOOK BASEBALL TEAM
WINS AT CEREAL**

One of the most interesting games played by the local boys this season was witnessed last Friday against the Cereal team, when after a hard-fought battle they came off the field victorious by a score of 5-3.

The game throughout was keen, and the first part of the game it seemed that Cereal was out to win taking two runs the first innings. On the first half of the second innings Chinook got three runs and from then on no score was made until the last innings when Chinook got away with two more runs. McLeod and Jordan pitched a wonderful game and the team backed them up in fine style. Hinds and Keays figured in the fielding by grabbing a couple of sky-scrapers and burying them in their mitt for keeps.

**FARMERS WARNED
AGAINST A NEW
PEST TO CROPS**

OTTAWA—The entomologist branch of the Department of Agriculture has issued a warning to all farmers that the European corn borer, a comparatively new and exceedingly destructive pest has been found in eastern United States and in parts of Ontario. The department warns that unless this pest is checked it will rapidly increase and cause great damage to crops. The warning circular is headed in red letters and is illustrated in order that agriculturalists may identify the pest.

LADIES' CARD CLUB

Mrs. M. J. Hewitt won the prize on June 14th, at the home of Mrs. P. Hinds. Her score was 142, and the prize three matched china cups and saucers.

The meeting of the club last Tuesday evening (June 21st) was held at the home of Mrs. James Martin. Mrs. W. Lee won the prize with 144 points, the prize being a jardiniere.

The last meeting of the club was held at the home of Mrs. R. Woodruff on Tuesday evening, when Mrs. Black won with a score of 144 points, the prize being a pair of white silk hose.

The club will be discontinued for two months. When it commences again in September the club will play 500.

Mr. J. H. Dowler, station agent left Wednesday for Calgary on a two month's vacation. His position is filled by Mr. A. W. Hyde.

Mrs. M. Currie left on Tuesday for Vancouver.
